Integral Security

Dragon's Group International is a professional consulting and investigative company with offices and associates through- out the world.

We also provide a comprehensive range of protection and security services to assist our clients in making informed business decisions, reducing exposure to loss, and providing business solutions.

Our staff includes attorneys, accountants, certified protection professionals, former security managers for multinational corporations, and former federal, state, and local law enforcement professionals. We assess each client's needs and provide timely, accurate, confidential, and cost-effective service.

Industrial Security

Internal and external workplace theft, vandalism, pilferage and related offenses account for losses in excess of \$100 billion annually. Fire safety is the # 1 issue or today's commercial buildings. Without an adequate security and fire safety program, the financial impact on your company could be tremendous. Dragon's Group programs allow large and small corporations alike to save money while maintaining on-premises security operations. Our corporate security professionals will institute cost-effective security programs that will protect your employees and assets. Dragon's Group will custom-tailor a program to meet your individual needs that can include the following services:

Security Risk Assessments	Development and Implementation of Company-Wide Policies
Advising Company Management on Security Related Matters	Supervision of Uniform Security Officers
Special Event Security	Executive Protection

Personal Security

Our Agents, both Male and Female provide a secure platform for performing the types of assignments listed below. We serve Executives, Corporations and Celebrities around the World and are utilized by other security companies to compliment their staff. We handle a wide range of requests, and provide our clients with respectful attention to their immediate problem(s). We have yet to find a request too unusual or difficult to fulfill. We provide our own documentation and equipment. All of our Agents are licensed to carry a concealed weapon in the City or Country where the Assignment takes place. A few of the Assignments we accept are as follows...

OUR SPECIALTY: South American Assignments	Executive Protection
High Level Kidnapping Deterrents and Protection Services	Paparazzi Deterrent
Surveillance	International Armed Escort

Government Services

The Federal Systems Division is the most specialized division within Dragon's Group and is also the most confidential. With the size and scope of the U.S. government, our focus is to understand the unique security environment in which government agencies operate; provide the necessary resources to deal with that environment; and offer the expertise to create the optimal security solution for any given situation.

Many of the professionals we employ previously worked for the agencies we serve. They understand the bureaucracy and ordering processes involved. With that knowledge and experience, these special individuals are able to design integrated, innovative security systems that answer those challenges.

Our local offices across the country allow us to fulfill government security contracts nationwide with an expediency no competitor can match.
